

Release notes QlikView Informatica Connector 1.0 SR1

Release

This document covers changes in QlikView Informatica Connector 1.0 SR1. This is a Service release.

Affected modules

As a general rule, virtually all components are recompiled for any new release. You should always update both the client and server side

Bugs corrected in version – ***1.0 SR1***

- Installation is now possible also on Informatica 9.1.0
- Significant performance improvement has been made regarding the QVX file writing.
